## Title of the Research Paper (14pt Times New Roman, Bold, Centered)

Authors' Names (10pt Times New Roman, centered with numbered as superscript)

Department/ Affiliation (10pt Times New Roman, centered)

University/ organization (10pt Times New Roman, centered)

Address (10pt Times New Roman, centered)

Country (Capital, 10pt Times New Roman, centered)

youremailaccount@xxx.xxx.xx <http://www.yourwebaddress.xx> (10pt Times New Roman, centered)

---

**Abstract:** An abstract summarizes, in one paragraph (usually), the major aspects of the entire paper in the following prescribed sequence. The abstract of your paper must 200 words or less. This electronic document is a "live" template. The various components of your paper [title, text, heads, etc.] are already defined on the style sheet, as illustrated by the portions given in this document. Do not use special characters, symbols, or math in your title or abstract. The authors must follow the instructions given in the document for the papers to be published. You can use this document as both an instruction set and as a template into which you can type your own text.

**Keywords:** WWW; component; formatting; style; styling; insert (Minimum 5 to 8 key words)

---

### I. Introduction

The function of the Introduction is to establish the context of the work being reported. This is accomplished by discussing the relevant primary research literature (with citations) and summarizing our current understanding of the problem you are investigating. State the purpose of the work in the form of the hypothesis, question, or problem you investigated; and, briefly explain your rationale and approach and, whenever possible, the possible outcomes your study can reveal.

Quite literally, the Introduction must answer the questions, "What was I studying? Why was it an important question? What did we know about it before I did this study? How will this study advance our knowledge?"

PLEASE DO NOT RE-ADJUST THESE MARGINS.

All manuscripts must be in English. These guidelines include complete descriptions of the fonts, spacing, and related information for producing your proceedings manuscripts.

This template provides authors with most of the formatting specifications needed for preparing electronic versions of their papers. Margins, column widths, line spacing, and type styles are built-in; examples of the type styles are provided throughout this document and are identified in italic type, within parentheses, following the example.. Some components, such as multi-leveled equations and graphics, are not prescribed, although the various table text styles are provided. The formatter will need to create these components, incorporating the applicable criteria that follow.

### II. Type Style and Fonts

Your paper must use a page size corresponding to A4 which is 210mm (8.27") wide and 297mm (11.69") long. The margins must be set as follows:

- Top and Bottom = 1 inch
- Left and Right = 1 inch
- Header and Footer = 0.5 inch

Your paper must be in one column format with a paragraphs space 6pt up and 6pt down.

Wherever Times is specified, Times Roman or Times New Roman may be used. If neither is available on your word processor, please use the font closest in appearance to Times. Avoid using bit-mapped fonts if possible. True-Type 1 or Open Type fonts are preferred. Please embed symbol fonts, as well, for math, etc.

### III. Page Style

All paragraphs must be indented. All paragraphs must be justified, i.e. both left-justified and right-justified.

#### A. Text Font of Entire Document

The entire document should be in Times New Roman or Times font. Other font types may be used if needed for special purposes. Recommended font sizes are shown in Table 1.

#### IV. Title and Author Details

Title of the paper must be in 14 pt Times New Roman font. Author name must be in 10 pt Times New Roman.

**Table I Shows the font sizes for papers (Table font 8pt Times New Roman, Bold and Centered).**

Font Size	Appearance (in Time New Roman or Times)		
	Regular	Bold	Italic
8	table caption (in Small Caps), figure caption, reference item		reference item (partial)
10	author email address, author affiliation	abstract heading	abstract body, keywords
10	level-1 heading (in Small Caps), paragraph	keywords heading	level-2 heading, level-3 heading,
10	author name		
14	Title		

All title and author details must be in single-column format and must be centred.

Every word in a title must be capitalized except for short minor words such as “a”, “an”, “and”, “as”, “at”, “by”, “for”, “from”, “if”, “in”, “into”, “on”, “or”, “of”, “the”, “to”, “with”.

#### Figures and Tables

Figures and tables must be centred in the column. Large figures and tables may span across both columns. Any table or figure that takes up more than 1 column width must be positioned either at the top or at the bottom of the page.

Graphics may be of full color. Graphics must not use stipple fill patterns because they may not be reproduced properly. Please use only SOLID FILL colors which contrast well both on screen and on a black-and-white hardcopy, as shown in Fig. 1.

**Figure 1 A sample line graph (Font 8pt Times New Roman, Bold and Centered).**

#### A. Maintaining the Integrity of the Specifications

The template is used to format your paper and style the text. All margins, column widths, line spaces, and text fonts are prescribed; please do not alter them. You may note peculiarities. For example, the head margin in this template measures proportionately more than is customary. This measurement and others are deliberate, using specifications that anticipate your paper as one part of the entire proceedings, and not as an independent document. Please do not revise any of the current designations.

#### V. Prepare Your Paper Before Styling

Before you begin to format your paper, first write and save the content as a separate text file. Keep your text and graphic files separate until after the text has been formatted and styled. Do not use hard tabs, and limit use of hard returns to only one return at the end of a paragraph. Do not add any kind of pagination anywhere in the paper. Do not number text heads-the template will do that for you.

Finally, complete content and organizational editing before formatting. Please take note of the following items when proofreading spelling and grammar:

#### A. Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. Abbreviations such as IEEE, SI, MKS, CGS, sc, dc, and rms do not have to be defined. Do not use abbreviations in the title or heads unless they are unavoidable.

## VI. Using the Template

After the text edit has been completed, the paper is ready for the template. Duplicate the template file by using the Save As command, and use the naming convention prescribed by your conference for the name of your paper. In this newly created file, highlight all of the contents and import your prepared text file. You are now ready to style your paper.

## VII. References

The heading of the References section must not be numbered. All reference items must be in 8 pt font. Please use Regular and Italic styles to distinguish different fields as shown in the References section. Number the reference items consecutively in square brackets (e.g. [1]). When referring to a reference item, please simply use the reference number, as in [2]. Do not use “Ref. [3]” or “Reference [3]” except at the beginning of a sentence, e.g. “Reference [3] shows”. Multiple references are each numbered with separate brackets (e.g. [2], [3], [4]–[6]).
