Educational Technology Unit, CDAC Mumbai

presents

3-day workshop on Getting Started with Moodle

Overview

Many schools and colleges shifted towards the Online mode of teaching during Covid-19 pandemic. Learning Management Systems provide a relevant base environment for all the teaching learning activities in an online or blended mode. These provide support for activities such as content management, interaction, assessment, user management, etc.

This program is an in-depth workshop on adopting Moodle LMS for online teaching and learning. Moodle is a popular, open source, freely downloadable LMS with rich and flexible set of features. The workshop will walk through participants through various function of online teaching learning using Moodle. On each day, specific aspect(s) related to online teaching learning in context of Moodle will be demonstrated. Hands-on assignments (to be tried out at home) will be given at the end of each day, which participants have to submit by next day. The assignments will help participants get familiar with Moodle learning environment and its relevant features. Workshop faculty will provide feedback on the assignment submissions. Discussion forum will be setup to handle queries and to encourage peer interaction. The participants will be provided video recording of the presentations & tool demos, and slides.

Target Audience - Teaching Faculty (only) of Colleges and High Schools

Dates - Thursday 3rd Sept, 2020 – Saturday 5th Sept, 2020. **Timing:** 3 PM – 6:15 PM [3 Hours]
